State of Oregon Profile of Drug Indicators

February 2008

ONDCP Drug Policy Information Clearinghouse staff compiled this profile by using the most recent data available from open sources. The data presented are as accurate as the sources from which they were drawn. The information contained in this profile should not be used to rank or compare states or jurisdictions, due to differences in data collection and reporting methods.

Oregon

The following profile contains information on demographics, political figures, programs, crime, drug use, drug trafficking and enforcement statistics.

Programs/Initiatives

- High Intensity Drug Trafficking Areas (HIDTA)⁹
Designated in 1999, the Oregon HIDTA serves Clackamas, Deschutes, Douglas, Jackson, Marion, Multnomah, Umatilla and Washington counties.
- Oregon Alliance for Drug Endangered Children (DEC)¹⁰
The DEC is multi-agency approach to assist and protect children whose lives, health, and safety are jeopardized by drug manufacture, drug dealing or drug abuse in the family home.
- Career Offender/Methamphetamine Production Initiative¹¹
The purpose of this program is to target for federal prosecution persons who qualify as "career offenders" under Federal law and who are engaged in the production of methamphetamine.
- Oregon Drug Lab Cleanup Program¹²
The mission of the Clandestine Drug Lab Cleanup Program is to protect human health by assuring that properties formerly used in illegal drug manufacturing are properly evaluated, decontaminated and fit for re-occupancy.

Crime and Drug-Related Crime

- The Drug Enforcement Administration (DEA) reported 259 drug arrests in Oregon during 2007.¹³

Drugs

- Cocaine¹⁵
Cocaine is available throughout Oregon. While powder cocaine is more prevalent, crack cocaine is found in some urban areas.
- Heroin¹⁶
The most common form of heroin encountered in Oregon is Mexican black tar heroin.
- Marijuana
Marijuana is the most abused illegal drug in Oregon and its abuse, cultivation and trafficking are a significant threat.¹⁷ In December 1998, Oregon's Medical Marijuana Act took effect. This Act provides legal protection against criminal charges of marijuana possession, use or production if the marijuana is for medical purposes and the possession, use and production otherwise comply with the Act.¹⁸
- Methamphetamine¹⁹
Methamphetamine is one of the most widely abused controlled substances in the state and its availability is high. In the past, powder methamphetamine was more common; however, seizures show a switch to the more addictive and potent form of methamphetamine referred to as "ice" or "crystal."
- Club Drugs²⁰
MDMA, GHB, Ketamine and LSD are available in varying quantities within the state and are generally abused at social venues in more populated areas and on college campuses.
- Diverted Pharmaceuticals²¹
The abuse and trafficking of oxycodone, hydrocodone and anabolic steroids continues to be a concern within the state, while Methadone use has increased dramatically in Oregon.

- According to 2004-2005 data from the National Survey on Drug Use and Health (NSDUH), approximately 291,000 (10%) of Oregon citizens (ages 12 or older) reported past month use of an illicit drug.²²
